Education

Btech/Computer Science, *KIET GROUP OF INSTITUTIONS*
CGPA-8.44

09/2024 – 06/2028
Ghaziabad, India

Skills

Programming Language

C, C++, Javascript, Typescript

Frameworks

React, Node.js, Express.js, Next.js

Core Subject

Object Oriented Programming in C++, DSA, OS,
Database Management Systems

Tools

VS Code, Git, GitHub, Postman, MongoDB Compass,
Retrieval-Augmented Learning Artificial Intelligence
Generative AI

Achievements

Solved 500+ DSA problems across platforms.

Projects

Online Food Delivery System

Developed a responsive food delivery web application using React.js and Tailwind CSS, integrated with real-time APIs for dynamic restaurant and menu data. Implemented search, filtering, and cart management features to simulate a real-world food ordering experience.

Treelink

Developed a scalable link-in-bio platform inspired by TreeBio/Linktree using Next.js, TypeScript, and Tailwind CSS. Integrated PostgreSQL database for secure user data storage and profile customization. Implemented authentication, dynamic link management, and responsive design to allow creators to showcase content, products, and social media links in a single profile.

Github profile viewer

Built a GitHub Profile Viewer using React.js, integrating the GitHub REST API to fetch and display developer profiles. Implemented features such as profile search, repositories listing, followers/following details, and responsive design for a smooth user experience.

Certificates

Oracle Academy Sql

Certification

–Completed hands-on SQL
training with Oracle Database
